SALOMON

En 2026, nous franchissons une étape audacieuse vers la vision ultime de notre marque : devenir le leader des sports d'hiver de compétition. Nous lançons ÉQUIPE — une initiative globale qui affirme notre engagement sans faille auprès des athlètes dans l'ensemble de nos disciplines. ÉQUIPE est bien plus qu'une identité visuelle unifiée ; c'est une approche moderne et visionnaire de la compétition et de la course, portée par la passion. Fondée sur les piliers de la connexion, de l'inclusivité, de la performance, de l'expertise et de l'innovation, elle est conçue pour susciter quelque chose de plus grand. Nous ne nous contentons pas d'aider les athlètes à gagner des courses —

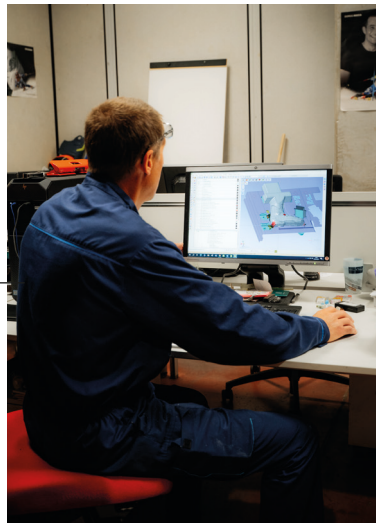

Nous créons une communauté dynamique où la performance s'intensifie grâce à la collaboration. En rassemblant compétiteurs, experts produits et passionnés, nous alimentons la flamme qui nous fait tous avancer. Nous brisons les barrières et construisons des ponts. En honorant les cultures propres à chaque discipline et en célébrant l'individualité de chaque athlète, nous faisons naître le succès. Nous ne faisons pas que participer à la compétition ; nous ouvrons la voie.

ICON

En adaptant la recette des fixations victorieuses en Coupe du Monde de Salomon à la nouvelle génération de champions, l'Icon RS 19 est conçue pour la compétition de haut niveau. La butée avant en forme de V centralise la transmission de puissance, en canalisant jusqu'à 30 % de puissance supplémentaire sous le pied et en libérant jusqu'à 15 % de pression en spatule et en talon, afin de maîtriser les virages les plus exigeants.

CONTRÔLE ET REBOND

Grâce à sa conception avec transfert de puissance centralisé, sa rigidité verticale réduite et sa pédale course entièrement plate, cette fixation offre davantage de contrôle, de rebond et un retour d'information plus direct.

PUISSANCE

U-SHAPED RAIL PROFILE

Dotée de renforts métalliques à l'avant et au talon, cette fixation offre une rigidité accrue pour un contrôle plus réactif et une sensation de stabilité, même à haute vitesse.

DYNAMISME

FULL FLEX

Grâce à son schéma de perçage spécial, qui centre la transmission de puissance, cette fixation réduit la pression aux extrémités du ski, permettant des transitions plus rapides.

CONTRASTE DES COULEURS AMÉLIORÉ

Les ingénieurs de Salomon ont conçu un écran unique qui fonctionne plus naturellement avec les trois couleurs perçues par l'oeil humain, offrant un contraste des couleurs renforcé et moins de fatigue oculaire.

PERCEPTION DE LA PROFONDEUR AMÉLIORÉE

La composition modifiée de l'écran réduit la confusion visuelle, apportant de la clarté quelles que soient les conditions météo et aidant à anticiper les variations de terrain, même les plus subtiles.

S/LAB EQUIPE SKATE WARM

Soyez traité comme un athlète de la Coupe du Monde.

S/LAB SELECT

Sélectionnés à la main pour vous par notre équipe S/Lab Select, à partir du même stock de skis que celui choisi par nos athlètes de la Coupe du Monde, ces skis portent vos performances au plus haut niveau.

THIN PLY ***CARBON***

Le carbon Thin Ply, de la spatule à la talonnière, améliore la transmission à chaque foulée.

INNOWAVE

Un noyau en nid d'abeille ultraléger, fabriqué à partir de papier, colle et fines parois latérales en bois, offre une consistance optimale et optimise la transmission d'énergie.

FUZE *EDGED* ***BASE***

La semelle Fuze Edged et le fini SL21 excellent dans les conditions de neige chaude et humide que l'on peut rencontrer sur le parcours de course. Chaque semelle amovible possède une apparence unique.

SL21 WARM ***GRIND***

Le carbon Thin Ply de la spatule à la talon amplifie la transmission à chaque appui.

S/LAB EQUIPE SKATE BOA®

Né de l'obsession, conçu pour booster vos performances.

CARBON ***LOADED***

Le cuff Carbon Loaded™, associé au châssis en carbone, offre une précision pied-ski ultra-précise, un transfert d'énergie explosif et les performances de feu exigées en course.

CUSTOM ***FIT™ RACE***

La chaussons Custom Fit™ Race épouse votre pied comme une seconde peau, tandis que le système de serrage multidirectionnel Li2 BOA® permet d'ajuster le fit avec précision pour un contrôle total.

CARBON ***SKATE***

Avec un châssis en carbone, une chaussette ultra-légère et une semelle extérieure en deux parties, chaque élément est conçu pour réduire le poids et optimiser les performances à grande vitesse.
